Volume 21 Number 1 1990

1 The swine steroid 21-hydroxylase gene (CYP21): cloning and mapping within the swine leucocyte antigen complex
C. Geffrotin, P. Chardon, D. F. de Andres-Cara, R. Feil, C. Renard & M. Vaiman

15 Variation in T cell responses to ovalbumin in cattle: evidence for Ir gene control
E. J. Glass, R. A. Oliver & R. L. Spooner

29 A hypervariable pig DNA fragment
W. Coppieters, A. Van de Weghe, A. Depicker, Y. Bouquet & A. Van Zeveren

39 Monoclonal antibody differentiates chicken *A* system alloantigens
J. E. Fulton, R. W. Briles & S. J. Lamont

47 Ontogeny and expression of chicken A blood group antigens
J. E. Fulton, V. J. Hall & S. J. Lamont

59 Swine lymphocyte alloantigens (SLA) class I serology and genetics in Belgian Landrace and Pietrain breeds
H. Varewyck, C. Renard, B. Kristensen, Y. Bouquet, M. Vaiman, A. Van de Weghe & A. Van Zeveren

69 The definition of five B lymphocyte alloantigens closely linked to BoLA class I antigens
J. T. Mackie & M. J. Stear

Short Communications

77 Isolation and characterization of two male-specific DNA fragments from the bovine gene
J. R. Miller & M. Koopman

83 Population data and a fourth allele for equine complement component 3 (*C3*)
A. T. Bowling & S. Dileanis

87 Genetic variation and distances of five Italian native sheep breeds
M. Zanotti Casati, G. C. Gandini & P. Leone

Molecular Genetic Markers

93 Two *Taq*I RFLPs at the porcine pancreatic phospholipase A2 locus (*PPLA2*)
A. L. Archibald & A. E. Cowper

Volume 21 Number 2 1990

95 Linkage relationships among 20 genetic markers in cattle. Evidence for linkage between two pairs of blood group systems: B-Z and S-F/V respectively
M. Georges, M. Lathrop, Y. Bouquet, P. Hilbert, A. Marcotte, A. Schwers, J. Roupain, G. Vassart & R. Hanset

107 Restriction fragment length polymorphism analysis of the κ-casein locus in cattle
G. Damiani, L. Ferretti, G. Rognoni & V. Sgaramella

115 Two new sheep haemoglobins, one of which is replaced by haemoglobin C in anaemia
L. Kilgour, S. C. Dixon & E. M. Tucker

123 Genetic polymorphism of complement factor H in cattle
H. Tabel, H. J. Groat, G. J. Kraay & W. P. Aston

129 *Equus przewalskii* plasma protease inhibitor (Pi) system
S. D. Patterson, K. Bell & V. J. A. Manton

141 Studies on the bovine major histocompatibility class I and class II antigens using homozygous typing cells and antigen-specific $BoT4^+$ blast cells
J. S. Rothel, J. H. Dufty & P. R. Wood

149 Linkage between genes for coat colour and for blood plasma esterase in dogs
I. C. J. Arnold & J. Bouw

153 A bovine monoclonal antibody detecting a class I BoLA antigen
S. J. Kemp, E. M. Tucker & A. J. Teale

161 Influence of major histocompatibility complex on reproduction and production traits in swine
C. Gautschi & C. Gaillard

171 Identification of goat allotypic determinants and generation of goat–mouse hybridomas secreting goat IgG2
R. Capparelli, G. Del Sorbo & D. Iannelli

181 Monoclonal antibodies to the bovine immunoglobulin G2a allotypes A1 and A2
D. M. Estes, J. W. Templeton & L. G. Adams

Short Communications

191 A single gel for determining genetic variants of equine erythrocyte carbonic anhydrase (*CA*) and catalase (*Cat*)
A. T. Bowling, L. Gordon, M. C. T. Penedo, E. Wictum & J. Beebout

199 The HK/LK polymorphism of erythrocyte cation content in two wild species of East African bovids: demonstrated in wildebeest but not in African buffalo
N. Georgiadis & P. B. Dunham

207 Assignment of nucleoside phosphorylase gene to q2.1 → q2.2 region of chromosome 7 in the pig, *Sus scrofa domestica* L.
J. Gellin, M. Yerle & M. Gillois

211 Extensive polymorphism at adenosine deaminase in the marine fish *Sciaenops ocellatus* (L.)
D. A. Bohlmeyer & J. R. Gold

215 Detection of bovine κ-casein genomic variants by the polymerase chain reaction method
D. Denicourt, M. P. Sabour & A. J. McAllister

217 Genetic polymorphism of δ-aminolaevulinic acid dehydratase (E.C. 4.2.1.24, ALAD) in the domestic rabbit
N. Ferrand & A. Amorim

220 Society News

Volume 21 Number 3 1990

i Obituary: Professor Bo Gahne

221 The relationship between bovine major histocompatibility complex class II polymorphism and disease studied by use of bull breeding values
A. Lundén, S. Sigurdardóttir, I. Edfors-Lilja, B. Danell, J. Rendel & L. Andersson

233 Genetic systems of red cell blood groups in goats
T. C. Nguyen

247 DNA fingerprints of chickens selected for high and low body weight for 31 generations
E. A. Dunnington, O. Gal, Y. Plotsky, A. Haberfeld, T. Kirk, A. Goldberg, U. Lavi, A. Cahaner, P. B. Siegel & J. Hillel

259 Restriction fragment length polymorphism of bovine lysozyme genes
S. Sigurdardóttir, A. Lundén & L. Andersson

267 Polymorphism of pig serum α-protease inhibitor-3 (PI3) and assignment of the locus to the *Pi1, Po1A, Po1B, Pi2, Igh* linkage group
A. Stratil, D. Čížová, J. Hojný & J. Hradecký

277 Salivary gland amylase polymorphism in pigs and cattle detected by affinity electrophoresis
Yu. I. Rozhkov & I. R. Galimov

285 Variation of some serum proteins in red deer, *Cervus elaphus* L.
A. Stratil, V. Glasnák, P. Bobák, D. Čížová, E. Gábrišová & P. Kaláb

295 A survey of transferrins in 87 teleostean species
A. Jamieson

303 Erythrocyte antigens in Norwegian goats: serological and genetic studies
L. L. Nesse

Short Communications

313 Restriction site heteroplasmy in the mitochondrial DNA of the marine fish *Sciaenops ocellatus* (L.)
J. R. Gold & L. R. Richardson

317 Genetic polymorphism of serum vitamin D-binding protein (GC) in sheep and mouflon
P. Kaláb, A. Stratil & V. Glasnák

323 A bovine class I major histocompatibility complex molecule plus a *Theileria parva* antigen resembles mouse H-2K^{d}
B. M. Goddeeris

329 Linkage studies on erythrocyte antigen loci, the major histocompatibility complex and the haemoglobin beta gene cluster in goats
L. L. Nesse, O. Bergersen, D. M. Eide & M. Braend

333 Additional information on the linear order of the genes encoding the red blood group C-system antigens in cattle
C. Buys

335 Transferrin and albumin polymorphisms in buffaloes from Brazil
H. Schneider, M. P. C. Schneider, B. T. F. da Silva & F. M. Salzano

Molecular Genetic Markers

339 An *Alu*I polymorphism near the 5′ end of the goat ϵ^{IV} globin gene
O. Bergersen

Volume 21 Number 4 1990

341 Restriction fragment length polymorphism identification of goat α_{s1}-*casein* alleles: a potential tool in selection of individuals carrying alleles associated with a high level protein synthesis
C. Leroux, P. Martin, M.-F. Mahé, H. Levéziel & J.-C. Mercier

353 Partial nucleotide sequence of a novel bovine major histocompatibility complex class II β-chain gene, *BoLA-DIB*
R. T. Stone & N. E. Muggli-Cockett

361 Associations between blood groups, blood protein polymorphisms and breeding values for production traits in Swedish Red and White Dairy bulls
L. Andersson-Eklund, B. Danell & J. Rendel

377 Minisatellite DNA fingerprints of salmonid fishes
J. B. Taggart & A. Ferguson

391 Genetic analysis of erythrocyte superoxide dismutase polymorphism in the genus *Cervus*
S. Herzog

401 Chicken *A* blood groups system antigens: molecular characteristics and lack of expression on lymphocytes
J. E. Fulton, W. E. Briles & S. J. Lamont

Short Communications

411 Localization of the *PGD* and *TGFβ-1* loci to pig chromosome 6q
M. Yerle, A. L. Archibald, M. Dalens & J. Gellin

419 Transferrin variation in jaraquis, *Semaprochilodus taeniurus* and *S. insignis*, in the Amazon region
A. S. Teixeira, J. C. P. Raposo & A. Jamieson

423 Further evidence for a silent allele in the transferrin locus of the horse
D. O. Schmid, N. Ek & M. Braend

427 Evidence for absence of linkage between the B and Z as well as between the F and S systems of cattle blood groups
F. Grosclaude, D. François & M. Wimitzky

431 Evidence against linkage between two pairs of bovine blood group loci: B-Z and F-S
H. C. Hines & B. Larsen

Molecular Genetic Markers

433 Ovine dinucleotide repeat polymorphism at the MAF18 locus
A. M. Crawford, F. C. Buchanan & P. A. Swarbrick
